Dear Mr. Denton:

In the Matter of the
Tennessee Valley Authority

)
)

Docket No. 50-296

Enclosed are further revisions to the proposed inservice inspection technical specifications for Browns Ferry Nuclear Plant unit 3. These proposed changes were originally submitted by letter from J. E. Gilleland to Edson G. Case dated July 29, 1977 (TVA BFNP TS 89), and subsequently revised by letter from J. E. Gilleland to you dated April 24, 1979. These additional revisions are proposed in response to a concern expressed by the NRC reviewer of the Browns Ferry inservice inspection program in telephone discussions with us.

Please continue your review of this requested license amendment for Browns Ferry unit 3 and the associated inservice inspection program. If we can be of any assistance to your staff, please get in touch with us.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
