**Subject:** Draft Wording for Potential Condition of License Transfer Order

Dear Ms. Halter,

The final decision for the proposed transfer of the Pilgrim Nuclear Power Station (Pilgrim) is still under review. Below is **draft** language regarding a potential condition that may be imposed should the transfer be approved. We are providing this for your awareness only. The NRC staff is not requesting feedback on the draft condition.

If the NRC staff's approval of this license transfer is subsequently overturned pursuant to a post-effectiveness hearing on the license transfer application, the Pilgrim licenses currently in effect, reflecting Entergy Nuclear Operations, Inc. and Entergy Nuclear Generation Company as the licensees, will be reinstated subject to any post-transfer license amendments approved pursuant to 10 CFR 50.92. The NRC staff's approval of this transfer, including this Order and any conforming amendments reflecting this transfer, will be rescinded, and the Applicants must return the plant ownership to the status quo ante and revert to the conditions existing before the transfer.

A copy of this email will be available electronically in ADAMS. ADAMS is accessible from the NRC website at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,
