SUBJECT: THE DANBURY HOSPITAL D/B/A NEW MILFORD HOSPITAL, ACCEPTANCE
OF NOTIFICATION OF INDIRECT TRANSFER OF CONTROL, MAIL CONTROL
NO. 611918

Dear Dr. Murphy:

By the letter dated April 1, 2019, The Danbury Hospital d/b/a New Milford Hospital requested written consent by the U.S. Nuclear Regulatory Commission (NRC) to a proposed indirect transfer of control of its license. New Milford Hospital's parent organization, Western Connecticut Health Network, Inc., is affiliating with Health Quest Systems, Inc., and forming a new common parent, NuVance Health. From your letter, we understand that this transfer will not result in any change to the location of use, materials, persons using licensed material, persons responsible for radiation safety at the licensed facility, or name of the license.

Based on the above understandings, as more fully detailed in the enclosed NRC staff's Safety Evaluation Report, which documents the NRC staff's safety review of the request, and in accordance with 10 CFR 30.34, the NRC consents to the proposed transfer. Future changes in the licensee's name, licensed use, licensed materials, licensed location, or persons responsible for licensed material require submission of a request to amend the license. NRC approval must be received prior to implementation of the proposed change. If you have any questions regarding this letter, please contact Penny Lanzisera at 610-337-5169 or via electronic mail at penny.lanzisera@nrc.gov.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation in this matter.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Penny Lanzisera'.
