Inspection of Risk-Informed Initiatives

Antonios M. Zoulis, Branch Chief
PRA Oversight Branch
Division of Risk Assessment
Office of Nuclear Reactor Regulation
August 21, 2019

Risk-informed Inspection Procedure Changes

- Guidance to inspectors when conducting Reactor Oversight Process baseline inspections of 10 CFR 50.65 (maintenance rule), 10 CFR 50.69 (risk-informed categorization and treatment of equipment), and risk-informed Technical Specification initiatives such as Risk-Informed Completion Times (4B) & Surveillance Frequency Control Programs (5B).
- Intended to provide a better understanding of the regulatory framework, as well as focus inspector efforts.
- Inspection procedure sample size and level of effort remains the same.
- Intent is for the Inspection Procedures to be finalized and in place by January 1, 2020.
