Dear Chairperson Svinicki,

The Plymouth Area League of Women Voters wishes to protest, in the strongest terms, two recent NRC decisions regarding Pilgrim Nuclear Power Station. In light of strong state and local opposition, we urge you to reconsider them.

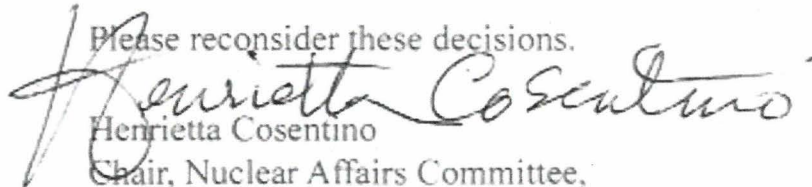

First, you denied our AGO's application to stay the decision on Pilgrim's license transfer for 90 days. Both the Town of Plymouth and the Commonwealth have legitimate concerns about the financial accountability of the prospective licensee, its finances and its plans for safety, security, monitoring, and emergency response during the period of decommissioning. Your decision effectively stymies negotiations intended to provide assurances either missing from NRC regulations, or waived by the NRC.

Second, you signaled your intent to announce the transfer of Pilgrim's license to Holtec on or about August 21st—before the public hearing scheduled for September 11, and before full consideration of long-standing petitions by our AGO and Pilgrim Watch to intervene in the license transfer. This decision communicates a blatant disregard for the public interest.

Both Holtec and its chosen partner, SNC-Lavalin, have dubious histories of bribe-taking. Re Holtec, see <https://www.propublica.org/article/holtec-international-george-norcross-tax-breaks>; see also <http://www.beyondnuclear.org/decommissioning/>. Re SNC-Lavalin: <https://business.financialpost.com/executive/canada-now->

[dominates-world-bank-corruption-list-thanks-to-snc-lavalin](#). How is it possible that such companies would be entrusted with vast quantities of nuclear waste in America's Hometown?

Please reconsider these decisions.

Henrietta Cosentino
