SUBJECT: REQUEST FOR CONSENT TO DIRECT LICENSE TRANSFER

Dear Dr. Alvarez:

By letter received April 19, 2019, SSM Health St. Francis Hospital – Maryville, now Mosaic Medical Center – Maryville, submitted to the U. S. Nuclear Regulatory Commission (NRC) a Request for Consent to indirect License Transfer of NRC Materials Licenses issued to SSM Health St. Francis Hospital - Maryville. The affected license noted in that letter was License No. 24-26415-01.

Based on the information provided, we understand that as a result of the agreement of SSM Health St. Francis Hospital – Maryville and Mosaic Life Care. We further understand that this transfer will not result in any change to the licensed materials, persons using the license material, location of use of licensed material, or persons responsible for the licensee's radiation safety program.

Based on the above understandings and as more fully detailed in the enclosed NRC staff's Safety Evaluation Report which documents the NRC staff's review of the request, the NRC consents to the proposed indirect transfer of control. With the notice of completion, dated June 17, 2019, with an effective date of April 1, 2019, we are issuing Amendment No. 17 to your NRC license, 24-26415-01, to reflect the transaction. Please contact Daniel C. Strohmeyer at 630-829-9689, or by e-mail at [Daniel.Strohmeyer@nrc.gov](mailto:Daniel.Strohmeyer@nrc.gov) if you have any questions regarding this letter.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.
