SUBJECT: THERMOFISHER SCIENTIFIC REQUEST FOR ADDITIONAL INFORMATION

Dear Mr. Wesolowski:

This letter is in response to your letter dated May 31, 2019 requesting an amendment to your Sealed Source and Device Registration NR-1234-D-101-E. We note that your request will require an amendment to your exempt distribution license 20-23922-01E.

We do not have sufficient information to complete the review of your request. In the enclosure to this letter you will find the list of the questions and items we need to complete our review.

Please be aware that upon your request, proprietary information submitted to the NRC may be withheld from public disclosure. To do this, you must follow the procedures in Title 10 of the *Code of Federal Regulations* (10 CFR) Paragraph 2.390(b) including requesting withholding at the time the information is submitted and complying with the document marking and affidavit requirements set forth in 10 CFR 2.390(b)(1).

We will continue our review upon receipt of this information. If we do not receive your reply within 30 calendar days from the date of this letter, we will consider your application as having been abandoned by you. This action would be without prejudice to the resubmission of another application with the required information.

Your response should not contain information concerning the possession and use of radioactive material because that is covered in a separate possession license issued by the State of Massachusetts.

Any correspondence regarding your amendment application should reference Control Number 612489. In accordance with 10 CFR Section 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS).
