SUBJECT: Notification of Completion of Activities under U.S. Nuclear Regulatory Commission  
(NRC) Radioactive Materials License No. 05-27748-01

Dear Sir or Madam:

Wood Environment & Infrastructure Solutions, Inc. (Wood E&IS), is providing written notification, as required by NRC Radioactive Materials License No. 05-27748-01, Docket No. 030-36204, that all license activities at a temporary job site have been completed. The specific site location is at the Hunters Point Naval Shipyard (Parcels E and C), located in San Francisco, California.

The scope of work involved the investigation/characterization of areas onsite suspected to be contaminated with Petroleum Hydrocarbons. Radiological controls were implemented at the request of the U.S. Department of the Navy (Navy) to ensure that appropriate controls and measures were in place during work activities where radioactive materials might be encountered. Wood E&IS has completed the contracted work and has returned responsibility for radiological controls to other Navy contractors.

Thank you for closing Wood E&IS' licensed activities at the Hunters Point Naval Shipyard's temporary job site in San Francisco, California. If you have any questions regarding this notification, please do not hesitate to contact me at (970) 208-8392, or via email at [jeffrey.lively@woodplc.com](mailto:jeffrey.lively@woodplc.com).

Sincerely,

Jeffrey W. Lively
