SUBJECT

Additional Information Needed for License Amendment

SUMMARY

This record is in reference to the NRC license amendment request dated May 13, 2019, and the resulting conversation between the RSO, Rebecca Kuykendall and NRC license reviewer Erin Kennedy. As a result of this amendment request the records pertaining to the last several amendments were reviewed. It was discovered that in the previous amendment (Amendment No. 3) the the licensee's possession limit was inadvertently increased. In a letter dated July 22, 2016, the licensee requested to add a new authorized user, but did not request to change the possession limit.

In order to correct this issue, please provide a signed and dated letter which requests the maximum activity of each source and the maximum number of gauges by manufacturer and model number that you would like authorized on your license.
