

Dear Mr. Denton:

7/17/79

I live in a town just 12 miles from the Seabrook NH construction site. As I understand it, Public Service Co. only has to show the feasibility of evacuation for a 1/4 mile radius. Come, now; this won't do. If there's a Class 9 accident, we'll need help, too.

I believe construction should stop until a better plan is presented.

Sincerely,

P. W. Williamson  
XEP 6/10
