June 19, 1979

Mr. Boyce H. Grier, Director
Office of Inspection and Enforcement
U.S. Nuclear Regulatory Commission
Region 1
631 Park Avenue
King of Prussia, Pennsylvania 19406

Dear Mr. Grier:

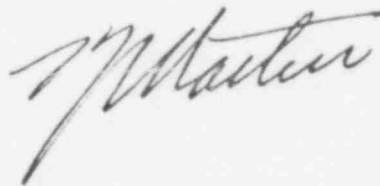

NRC IE BULLETIN NO. 79-09
FAILURES OF GE TYPE AK-2 CIRCUIT BREAKERS
IN SAFETY-RELATED SYSTEMS
NO. 1 AND 2 UNITS
HOPE CREEK GENERATING STATION

In reply to IE Bulletin No. 79-09 dated, April 17, 1979, we offer the following response:

Investigation into the subject bulletin affirms that General Electric Type AK-2 Circuit Breakers have not been supplied for safety-related systems at Hope Creek Generating Station.

Should additional information be desired, we will be pleased to further discuss it with you.

Very truly yours,

464 012
