Dear Mr. Grier:

SUBJECT: FORKED RIVER NUCLEAR GENERATING STATION
DOCKET NUMBER 50-363
RESPONSE TO IE BULLETIN 79-11

Your letter dated May 22, 1979, requested a response concerning the use of Westinghouse Types DB-50 and DB-75 circuit breakers in safety-related systems for the subject facility. It has been determined that this type of equipment has not been purchased to date.

If such circuit breakers are planned to be used in the future, a test program will be developed, in accordance with Item 4 of the subject IE Bulletin, which will confirm over-current time delay protection.

Very truly yours,

Ivan R. Finfrock, Jr.
