James Coughlin  
Vice President  
Nuclear

July 2, 1979

Mr. James G. Keppler, Director  
U.S. Nuclear Regulatory Commission  
Region III  
799 Roosevelt Road  
Glen Ellyn, Illinois 60137

Docket Nos.: STN 50-546  
STN 50-547  
Construction Permit Nos.: CPFR-170  
CPFR-171

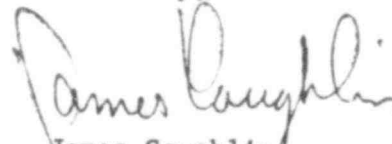

Marble Hill Nuclear Generating Station, Units 1 & 2  
I&E Bulletin Nos. 79-12, 79-12A, & 79-12B

Dear Mr. Keppler:

This letter constitutes Public Service Indiana's response to I&E Bulletins 79-12, 79-12A, and 79-12B.

The reactor pressure vessels being supplied for the Marble Hill Nuclear Generating Station Units 1 & 2 are supplied by Combustion Engineering under a subcontract from Westinghouse Electric Corporation. Combustion Engineering submitted a generic report entitled "Atypical Weld Material in Reactor Pressure Vessel Welds" to the NRC on June 8, 1979. The weld material data and other required information pertinent to the Marble Hill reactor vessels has been included in the Combustion Engineering generic report.

Sincerely,

  
James Coughlin  
Vice President-Nuclear
