Joseph H. Hurd, Chairman
U.S. Nuclear Regulatory Commission
1717 F Street NW
Washington DC 20012

Dear Mr. Hurd:

It has been drawn to my attention that the Westinghouse Corp. has made application to build a nuclear power plant in the Philippines.

I oppose this construction because, first of all, the site is near an earthquake fault and volcanoes, and to say nothing of the inability to dispose of the waste, and many other valid reasons for discontinuing the building of Nuclear Power Plants anywhere in the world.

You are well aware of the opposition by wide segments of our population to nuclear power plants in the U.S. and the reason why a greater number of people are clamoring for an end to these poisonous plants.

Sincerely,

Mrs. Mary M. E. Hurd
