Motion Seeking Extension of time within which to file
Comments to Draft Environmental Impact Statement

The intervenor requests extension of time to comment on the draft impact statement until June 26, 1975. This request is based on the time lag between release of the DES and the time of receiving the document. This was in the order of two weeks. Without the extension, undue time restrictions would be placed on the intervenor in his attempt to file comments. It is noted that both Calif. Public Utility Commission and the Calif. Energy Resources and Development Commission have been granted such an extension.

Respectfully submitted.
