INCOMING

Dear Commissioner Hendrie,

I know you are busy with the Three Mile Island investigation and everything, but I wonder if you could check something for me?

Earlier this year in Tulsa, the ASLB held closed-door hearings on safety aspects of the proposed Black Fox Station. General Electric Co.'s Reed Report was introduced as evidence in the hearings, but the hearings were closed to the public, the attorneys were ordered not to discuss the report, and (as far as I know), a transcript of those hearings was never made public.

My question is this: Would the NRC please release a transcript of the Black Fox Safety hearings, including those portions which dealt with the Reed Report? I would like to see it. I'm sure others would also.

I sincerely appreciate your attention to this matter.

Sincerely,

Bill Bryant
