

August 20, 1970

Harold Denton, Director
Reactor Regulation
Nuclear Regulatory Commission
1717 "H" Street NW
Washington DC, 20555

Dear Mr. Denton,

As you well know the people of Montgomery County recently submitted a petition to Judges of the county asking that two questions concerning the construction of the Limerick Nuclear Power Plant be placed on the November ballot. Unfortunately these questions will not be placed on the ballot. We are writing to you so as we may voice our objection to the licensing of the Limerick Plant and the use of water from the Delaware River for cooling purposing in the plant. Nuclear energy is a dangerous power source.

We object to the construction and operation at any dangerous form of energy in our neighborhood or any other neighborhood in the world. We have confidence that you will work to abolish this atrocity and help the human race survive.

Yours truly,

Sara Zaslow
