Reference: Docket No. 50-285

Dear Mr. Seyfrit:

This letter is to provide the current status of the Omaha Public Power District's effort to resolve the concerns of IE Bulletin 78-12B, dated March 19, 1979. Our reactor vessel manufacturer, Combustion Engineering, Inc. (CE), is currently engaged in performing the records search requested by IE Bulletin 78-12 (as modified by Supplements 78-12A and 78-12B). They plan to submit a generic report directly to the NRC covering all reactor vessels manufactured by CE before June 8, 1979. The District will then reference the generic report in its final response which should be submitted on or before June 29, 1979.

Sincerely,

T. E. Short
Assistant General Manager
