Intake Impingement Data
(File: 0520.2)

Gentlemen:

Environmental Technical Specification 4.1.2.a(2) requires submittal each month of the results of impingement monitoring at the intake of Arkansas Nuclear One - Unit 1. During the month of May, 1979, the Unit was in a shutdown condition which eliminated the need for this sampling. Thus, no such report is necessary for May, 1979.

Very truly yours,

David C. Trimble
