Mr. Peter Bradford
NRC
Washington, DC 20555

Dear Mr. Bradford:

Docket No. 50-466 is now before the full NRC Commission for review at the present time. More exactly ALAB-535, ALAB-539, and ALAB-544 are before the Commission for review. I can't tell from the Rules of Procedure whether parties can send information to the Commission during this time. As can be seen from reading ALAB-544, I have already sent the attached Memo to all the proper parties, but I can't be sure that the Commission has been sent it (or even if they have asked for it) so I am sending it to you directly.

The issue of correct Notice is too important to not consider it closely. I hope that you will make sure that all members of the Commission get copies of the full record (including the attached Memo which should be in that record).

Yours truly,
James M. Scott, Jr.
