Jamesport Nuclear Power Station - Units 1 & 2
Inspection & Enforcement Bulletin No. 79-09
Docket Nos. 50-516
50-517

Dear Mr. Grier:

In reply to Inspection & Enforcement Bulletin No. 79-09, we have reviewed the Jamesport Nuclear Power Station (JNPS) design and submit the following response.

Purchase Orders for circuit breakers in safety related systems have not been placed for the Jamesport Nuclear Power Station (JNPS). Accordingly, the particular circuit breakers which will be used are not known at this point in time. If GE type AK-2 circuit breakers are ultimately used in the JNPS safety related systems, a preventive maintenance program will be conducted in accordance with manufacturer's recommendations.

Should you require further information, please do not hesitate to contact us.

Very truly yours,

R. E. Plaskon
Assistant Project Manager
Jamesport Nuclear Power Station
