Dear Sir,

This is a Freedom of Information Act request for the documents relating to the TRIGA nuclear reactor at Columbia University in the city of New York. I am particularly interested in the amounts, and types of fuel used in the reactor's core along with the reactor's output of radiation and power. I would also like any materials dealing with the safety reports of other TRIGA reactors.

If any expenses in excess of twenty dollars are incurred in connection with this request please inform me in advance for my approval. My phone number is 201-797-7229.
