COMANCHE PEAK STEAM ELECTRIC STATION
1981-83 2300 MW INSTALLATION
RESPONSE TO NRC
IE BULLETIN 79-04
FILE NO: 10115

Dear Mr. Seyfrit:

In response to IE Bulletin No. 79-04, we have conducted a thorough investigation. We find that no 3, 4, or 6 inch diameter Velan swing check valves are installed or scheduled to be installed in Seismic Category I piping systems.

Should you have any other questions, please advise.

Very truly yours,

R. J. Gary
