Re: Perry Nuclear Power Plant
IE Bulletin No. 79-09

Dear Mr. Keppler:

The following has been prepared as a response to IE Bulletin 79-09 concerning the use of GE Type AK-2 breakers.

There are no breakers of this type planned for use in safety-related systems at the Perry Nuclear Power Plant.

Additionally, it must be noted that we were granted a response deadline extension on June 11 during a conversation with your Mr. J. Konklin. This deadline was changed to July 5, 1979.

Very truly yours,

Dalwyn R. Davidson

Vice President

System Engineering and Construction
