REFERENCE (a): May 22, 1979 letter from James G. Keppler to

Dear Mr. Keppler:

Reference (a) transmitted IE Bulletin No. 79-11, "Faulty  
Overcurrent Trip Device In Circuit Breakers For Engineered Safety  
Systems". That Bulletin required a response from Commonwealth  
Edison Company for LaSalle County, Byron and Braidwood Stations.

Commonwealth Edison has reviewed the application of  
Westinghouse Type DB-50 and DB-75 circuit breakers at LaSalle  
County, Byron and Braidwood Stations and found that these type  
circuit breakers are not used in any of the three subject plants.

Please address any questions that you might have concern-  
ing this matter to this office.

Very truly yours, .
