Fellow Citizens: NRC PUBLIC DOCUMENT ROOM

I would like to attend the public hearing to be held in mid-June regarding the Palo Verde Nuclear Generating Station, being built west of Phoenix. I am opposed to its further "construction". I see its destruction as constructive.

**POOR ORIGINAL**

Please send me a copy of the Atomic Safety and Licensing Board's order setting the date, time and place of the hearing.

Sincerely,

Acknowledged by card 5/15/79
