SOUTH CAROLINA ELECTRIC & GAS COMPANY
VIRGIL C. SUMMER NUCLEAR STATION (VCSNS) UNIT 1
TRANSMITTAL OF EMERGENCY PLAN PROCEDURE REVISION

Pursuant to 10 CFR 50.54(q)(5) and 10 CFR 72.44(f), attached is the change analysis summary for Revision 2 to the VCSNS Emergency Plan Administrative Procedure, VCS-EPP-0108 – Emergency Action Level Technical Basis Document. This revision incorporated changes that did not require prior NRC approval and does not implement actions that reduce the effectiveness of the VCSNS Emergency Plan. The Emergency Plan continues to meet the standards of 10 CFR 50.47(b) and 10 CFR 50 Appendix E.

If you have any further questions, please contact Alison Fulmer at (803) 941-9844.

Sincerely,

A handwritten signature in black ink, appearing to read 'George A. Lippard', written in a cursive style.

George A. Lippard
Site Vice President

**VCSNS EMERGENCY PLAN ADMINISTRATIVE PROCEDURE VCS-EPP-0108, REVISION 2,
10 CFR 50.54(q)(5) SUMMARY**

V. C. Summer Nuclear Station Emergency Plan Administrative Procedure VCS-EPP-0108 – Emergency Action Level Technical Basis Document, Revision 2, incorporated the changes described below on August 9, 2019. A description of why the changes were not reductions in the effectiveness of the emergency plan and the regulatory basis are provided.

1. Changed values throughout the procedure corresponding to fission product barrier thresholds using RM-G7 and RM-G18 per CR-19-01822.
2. Replaced reference TWR11.5-91-27 with reference TWR 11.0-19-010 throughout the procedure to support threshold value changes.

The changes made to the Emergency Action Level Technical Basis Document procedure maintain requirements in accordance with 10 CFR 50.47 and 10 CFR 50 Appendix E and do not change the intent of the Emergency Plan or the intent of the Emergency Action Levels affected. The timeliness and accuracy of classifications remain unchanged.

These changes continue to meet the regulations and planning standard by still maintaining all the requirements of 10 CFR 50.47 and 10 CFR 50 Appendix E. Overall the changes made to the Emergency Action Level Technical Basis Document procedure improve the capability to classify an emergency and do not reduce the effectiveness of the Emergency Plan and continue to satisfy the Planning Standard.
