Dear Sir:

This is a request on behalf of the Center for Development Policy ("CDP") pursuant to the Freedom of Information Act (5 U.S.C. §552, as amended) for a copy of the International Atomic Energy Agency report concerning the proposed nuclear to be located at Napot Point, Morong, Philippine Islands and any and all reports, memoranda, correspondence, scientific test results, cost-benefit analyses, risk-benefit analyses, and other documents pertaining to the proposed reactor, its siting and the IAEA report.

I request that any records located as a result of your search be made available for inspection and copying. At the time they are made available, it will be determined whether it is necessary to reproduce any of them. If you determine that some or all of the records are exempt from release under FOIA, please notify me in writing which exceptions you believe cover the materials you are not releasing, and make available the remainder of the records to the extent that they are "reasonably segregable," in accordance with the FOIA, from the records you have determined to be exempt.

CDP is a research and education project of the International Center and has a continuing interest in the rational extension of technology, particularly abroad. This request on their behalf is, therefore, "in the public interest, because furnishing the information can be considered as primarily benefiting the general public," and any applicable fees should be waived as permitted by the Act. In the event that a search is required and you are unwilling to waive search fees, I would appreciate your advising me in advance. CDP's need for information requested by the letter is urgent.

If you have any questions concerning this request, please contact me by telephone in order to expedite matters. Otherwise, I will expect to receive a reply from you within the ten (10) working days provided for response by the Act.

Very truly yours,

Matthew B. Bogin
