

Iowa Electric Light and Power Company

August 17, 1979

LDR-79-155

LARRY D. ROOT
ASSISTANT VICE PRESIDENT
NUCLEAR GENERATION

Mr. Harold Denton
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Subject: Security Organization Training and
Qualification

Dear Mr. Denton:

In response to the requirements of 10CFR73.55(b) (4) regarding security organization training and qualification, Iowa Electric Light and Power is submitting the enclosed material as a proposed revision to the Duane Arnold Energy Center Modified Amended Security Plan (DAEC MASP).

In lieu of submitting a Security Organization Training and Qualification Plan as a new licensing document to meet the requirements of 10CFR73.55(b) (4) and Appendix B to 10CFR73, we elected to revise the DAEC MASP to insure that information already contained in the MASP would not conflict with that which is required to support the Training and Qualification Plan. The DAEC Operations Committee has determined that these changes do not decrease the effectiveness of the DAEC Modified Amended Security Plan per the requirements of 10CFR50.54(p).

With the incorporation of the proposed revision, the Duane Arnold Energy Center Modified Amended Security Plan will fully address the requirements of 10CFR73.55(b) (4) and Appendix B to 10CFR73.

The enclosed material should be withheld from public disclosure pursuant to Section 2.790 of the Commission's regulations.

Very truly yours,

Larry D. Root

Larry D. Root
Assistant Vice President
Nuclear Generation
