Dear Chairman Wolfe,

I am deeply concerned about construction of a nuclear power plant at Allen's Creek, and wish to notify you of my intention to become a full intervener to stop this god awful mistake. I live within fifty miles of the proposed construction site and feel threatened by the evacuation improprieties with regard to radiation contamination disaster. As I was unaware of any previous hearing notices due to the fact I don't read the Federal Register, I want my voice heard in a responsive way now. I will forward my specific argument when notified to do so.

Sincerely yours,

Laura Lewis
