July 17, 1979

Mr. Sheldon J. Wolfe  
Atomic Safety and Licensing Board  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Chairman Wolfe,

I live within fifty miles of a nuclear power plant proposed at Allen's Creek. I am deeply concerned about radiation safety and feel my life will be placed in unequivocal danger with the construction of this man-made disaster. As I wasn't aware of any previous hearing, much less the locality of this nuclear waste, I wish to become a full intervener at up-coming construction permit hearings. It is a real waste of precious money at a time of a recession as other more economically benefiting alternatives are available.

Cordially,

A handwritten signature in cursive script, appearing to read "D.B. Waller".

D.B. Waller
