

~~Dear~~ Mr. Secretary,

SERVED JUL 24 1979

I would like to petition The Nuclear Regulatory Commission To halt The Licensing of the Allen's Creek Nuclear Power Plant. I FEEL that This plant is going To be Too near a densely populated area in a very short period.

Houston will no doubt be expanded West on I10 and Westheimer and west on <sup>hwy</sup> 1093 ; and This is in a straight line To your Plant site. The radiation risk is not acceptable.

This is my: first petition, due To The fact That past intervenors were extremely restricted.

I wish To be a full party To this process Please keep me informed of The progress of This Licensing Procedure.

I Live about 45 miles from your site ; I expect To be affected should this plant ever have a serious problem.

Yours Truly,

7909070050
