SUBJECT: Application for Amendment - XR80

XR80
50-392
amend 3

Dear Ms. Wright:

The subject license has been issued to General Electric authorizing export of components for the Chinshan Nuclear Power Station to Taiwan Power Company in Taiwan.

Certain components for this plant will be supplied by another U.S. manufacturer according to an order by the consignee's U.S. agent. In view of the technicalities which temporarily complicate issuance of XCOM licenses to other suppliers to Chinshan, General Electric hereby requests license XR-80 be amended to include, as other parties to export:

(1) U.S. Agent of Taiwan Power Company

Ebasco Services Company
21 West Street
New York, N.Y. 10006

(2) Supplier

Byron Jackson Pump Division
P.O. Box 2017
Terminal Annex
Los Angeles, Calif. 90051

*Copy to FDR and ACC 9-6-79 ..

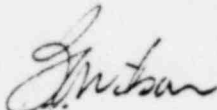

910010 321

1065 161

If additional information is required for this amendment, we shall be happy to supply it.

It is understood that issuance of the requested amendment will not relieve General Electric of its responsibility for compliance with the license.

Very truly yours,

B. D. Wilson, Manager
Gov. Relations & Export Licensing
