NRC Docket Nos. 50-373/374

Reference (a): L. O. DelGeorge letter to J. G.
Keppler dated June 6, 1979

Dear Mr. Keppler:

As was reported in Reference (a), defects identified in the LaSalle County ventilation stack has led to the re-evaluation and modification of the stack. Attached for your information is a comprehensive summary of the inspection, testing and design evaluation conducted by Sargent & Lundy with Commonwealth Edison to resolve the deficiency identified.

As is indicated in the attached report, a permanent repair will be implemented to restore the design basis capacity of the stack. This work was initiated in August, 1979 and is expected to be completed by May, 1980.

If you have any questions on this submittal, please direct them to this office.

Very truly yours,

L. O. DelGeorge
Nuclear Licensing Administrator
