POOR ORIGINAL

Dear Mr. Henderson,

7/31/79

Met Ed has shown it's unconcerned  
for people again by dumping 4000 gallons  
of water into the Housatonic. Either the  
NRC didn't know or met Ed & the NRC decided  
to keep it from us. If you let up, unless  
you met Ed they should enforce them  
if they break them then punish them  
till they're good. They can't be  
trusted. 1000 miles from me is a tough  
place to live. Please keep us in your  
thoughts.  
Ann Rust
