Re: Peach Bottom Atomic Power Station Units 2 and 3
Docket Nos. 50-277 and 50-278
Physical Security Plan

Dear Dr. Denton:

Enclosed are five copies of a revised cover, a revised title page and revised pages 3-5, 3-7, 3-9 and 16-1 dated October, 1979, which are to be inserted in the Peach Bottom Atomic Power Station Physical Security Plan dated May, 1978 and previously revised January, February and August, 1979. The Licensee has determined that the changes to the Plan, which are indicated by a vertical bar in the right margin of the revised pages, will not decrease the safeguards effectiveness of the Plan.

Since the revised pages transmitted herewith contain information relating to the details of the physical security plan for a licensed facility, it is hereby requested that the documents transmitted herewith be withheld from public disclosure pursuant to Section 2.790 of the Commission's regulations. An affidavit in support of this request is attached hereto.

Very truly yours,

Eugene J. Bradley

COMMONWEALTH OF PENNSYLVANIA :
COUNTY OF PHILADELPHIA : SS.

S. L. DALTROFF, being first duly sworn, deposes and states as follows:

1. He is Vice President of Philadelphia Electric Company (hereinafter referred to as the "Company"); he is authorized to execute this Affidavit on behalf of the Company; and he has read revised pages 3-5, 3-7, 3-9 and 16-1 of the Physical Security Plan for Peach Bottom Atomic Power Station dated October, 1979, (hereinafter referred to as "the revisions"), and knows the contents thereof.

2. The revisions which are sought to be withheld from public disclosure contain details of the physical security plans for Peach Bottom Atomic Power Station.

3. To the best of his knowledge, information and belief, the information set forth in the revisions has been treated as confidential and proprietary information and has been withheld from public disclosure by the Company in accordance with the Company's practice of treating all information dealing with the details of security procedures as confidential and proprietary information.

4. The revisions should be considered by the Nuclear Regulatory Commission as confidential and proprietary information and be withheld from public disclosure on the grounds that they contain details of the physical security plans of a licensed facility, such disclosure is not required in the public interest, and such disclosure would adversely affect the interest of Philadelphia Electric Company.
