Division of Project Management
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Docket No. 50-267

Subject: Follow-Up Actions - TMI-2 Accident

Reference: Vassallo to Fuller Letter
September 13, 1979

Gentlemen:

In the referenced correspondence and enclosure, Public Service Company of Colorado was requested to respond and commit to certain items in the enclosure within 30 days of receipt, i.e., October 17, 1979.

PSC was notified on October 4, 1979 by telephone by a member of the Staff that a meeting to clarify the Staff's position on certain items contained in the enclosure to the reference correspondence was to be held in Bethesda on October 10, 11 and 12, 1979.

Because of the meeting held in Bethesda and the position taken by the Staff, certain of our responses to requirements contained in the reference correspondence require substantial reanalysis and revision.

Therefore, PSC's response which was due on October 17, 1979 will be delayed until October 29, 1979.

If there are any questions concerning this delay in response, please refer them to this office.

Very truly yours,

Frederic E. Swart
Nuclear Project Manager
