

NRC PUBLIC DOCUMENT ROOM

In the Matter of

Houston Lighting and Power Company
(Allens Creek Nuclear Generating Station)

Docket No. 50-466

TO THE ATOMIC LICENSING & SAFETY APPEALS BOARD:

In an Aug. 27, 1979, Order (received on Sept. 6, dated Aug. 6) the Board in Docket No. 50-466 ruled that I may have until Sept. 14, 1979 to present amendments to my previous contentions. However, this is contrary to 10 CFR 2.714 (a) (3), which states in part " . . . A petition may be amended without prior approval of the presiding officer at any time up to fifteen days prior to the . . . prehearing conference . . ." Since a special prehearing conference is scheduled for Oct. 15-19, I should have until Oct. 1 to amend my contentions. I ask the ASLAB to strike down the part of the Aug. 27 Order which conflicts with 10 CFR 2.714 (a)(3).
