Joseph Hendrie, Chairman
Nuclear Regulatory Commission
1717 H Street, N. W.
Washington, D. C. 20555

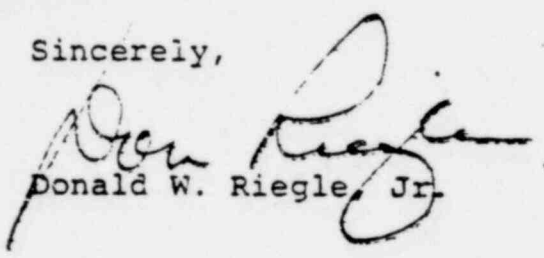

Dear Chairman Hendrie:

It is my understanding that the Palisades Nuclear Plant near South Haven, Michigan is to undergo a replacement of the steam generator. I have been contacted by several constituents who wish to voice their concerns in a public hearing. Given their concern regarding the safe operation of this plant, and my belief that we should allow as much citizen participation as possible, I hope you will allow public intervention at this hearing at the expense of the Nuclear Regulatory Commission. One group in particular that has filed for citizen participation in this matter is the Great Lakes Energy Alliance.

If you have any questions, please contact Steve Harris of my staff at 224-4822.

Thank you for your cooperation.

Sincerely,

Donald W. Riegle, Jr.
