3 July 1979

Dear Senator Johnston,

We are very concerned about the Waterford 3 and the Riverbend Nuclear Power Plants currently being built in Louisiana due to:

1. unexplained problems causing the accident at the similarly constructed Three-Mile-Island plant;
2. lack of a permanent disposal plan for radioactive wastes;
3. evacuation problems;
4. constant low level radiation emissions from normally operating nuclear power plants.

I ask you to work to halt construction on these plants until these issues are resolved.

Sincerely,

*Dana W. Hebert*  
*Mrs. Dana Hebert*  
Mr. and Mrs. Dana W. Hebert
