Mr. Jones,

This refers to your request to amend your license dated July 15, 2019. In order to continue our review of your request, the following additional information is needed:

1. Item 13 in section 8.13 (pg 8-56) of NUREG-1556, Vol. 2, Rev. 1 of the Consolidated Guidance About Materials Licenses, Program-Specific Guidance About Industrial Radiography Licenses ([NRC: Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Industrial Radiography Licenses, Final Report \(NUREG-1556, Volume 2, Revision 1\)](#)) states in part that the representative signing the application (NRC Form 313/letter) must be authorized to make binding commitments and to sign official documents on behalf of the licensee. Please verify that Adrian M. Jones has authorization to make binding commitments and sign official documents on behalf of the licensee.
2. Due changes in the formatting of NRC Licenses, please provide the sealed source information for Item 6B and 6D (i.e. manufacturer, model number, source strength, maximum source strength or provide copy of SS&D) listed on your current license (amendment 86).
3. Please confirm the model number(s) of the radiography cameras that you possess or would like to possess in item 10A of your current license.
4. On your current license it lists Building 167-2 as part of your business address. On your amendment request, it lists Building 134-2 as part of the RSO address. Please confirm the building number that is used for your business address.

Your reply must be an originally signed and dated letter. The letter may be scanned and submitted as a pdf document attached to an email; or it may be transmitted by facsimile to (610) 337-5269; or it may be sent by regular mail. If we do not receive a reply from you within 30 calendar days from the date of this e-mail, we will assume that you do not wish to pursue your amendment request.
