

THE CINCINNATI GAS & ELECTRIC COMPANY

E. A. BORGMANN  
VICE PRESIDENT

Docket No. 50-358

September 5, 1979

Mr. Harold Denton, Director  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

RE: WM. H. ZIMMER NUCLEAR POWER STATION -  
UNIT 1 - "NEDO-24708, ADDITIONAL INFORMATION  
REQUIRED FOR NRC STAFF GENERIC REPORT ON BWR REACTORS"

Dear Mr. Denton:

Please reference the subject General Electric Report NEDO-24708 on the Zimmer Docket in response to the NRC Letter dated July 23 from John F. Stolz to Earl A. Borgmann. NEDO-24708 has been transmitted to the NRC by letter dated August 17, 1979 from T. D. Keenan to D. F. Ross. This report responds in part to the short term generic information request of the Bulletins and Orders Task Force. A subsequent revision or supplement to this report will include the remainder of the requested information by November 16, 1979.

By letter dated July 26, 1979 from D. F. Ross to Thomas D. Keenan, the NRC requested additional information regarding boiling water reactors. As this information is applicable to only those BWR's in operation, it is not intended that there will be a response to that letter referenced on the Zimmer Docket.

Very truly yours,

THE CINCINNATI GAS & ELECTRIC COMPANY

By   
E. A. BORGMANN  
Senior Vice President
