

August 29, 1979

Dr. Phillip C. Cota  
Environmental Projects  
Branch 1  
Division of Site Safety and Environmental  
Analysis  
U.S. Nuclear Regulatory Commission  
Washington, DC

Dear Dr. Cota

Enclosed are three additional technical reviews of the Draft Environmental Statement on NEP 1 and 2. One of them, Dr. Hellman's, is to be substituted for his draft of 26 June 1979.

As stated in Dr. Sean Kelleher's letter and note of 3 August 1979, these comments are to be considered provisional in nature, and should the NEP 1 and 2 application be reactivated, the State of Rhode Island will submit more extensive comments.

Yours truly

Clement A. Griscom, Ph.D.  
Technical Team Coordinator  
of the Governor's Energy Office  
for the NEP 1 and 2 Review

CAG/dap
