SUBJECT: COMANCHE PEAK STEAM ELECTRIC STATION  
DOCKET NOS. 50-445 AND 50-446  
SUBMITTAL OF ELECTRICAL, INSTRUMENTATION AND  
CONTROL DRAWINGS

Dear Mr. Baer:

In your letters of February 28, 1979, and June 20, 1979, you requested an updating of the electrical, instrumentation and control drawings listed in Section 1.7 of the Final Safety Analysis Report for Comanche Peak Steam Electric Station, Units 1 and 2. In your letter of June 20, 1979, you also recommended that we delay sending these drawings until the end of calendar year 1979 due to the lack of staff resources and the design status of the drawings.

Now that Argonne National Laboratory has been contracted to assist in the staff's review, the requested drawings are submitted. The attachment lists the drawings being submitted and their revision status. Two (2) copies of each of the drawings are enclosed and by copy of this transmittal, one (1) copy of each of the drawings are being submitted directly to Argonne National Laboratory.

Respectfully yours,

*R. J. Gary*
