CAUSE DESCRIPTION AND CORRECTIVE ACTIONS (27)

1 0 This event was caused by the inadequacy of procedure HNP-2-3357 in making plant personnel aware that the electric fire pump would be inoperable while the procedure was being performed. Procedure HNP-2-3357 has been revised so that it will not make the electric fire pump inoperable and so that plant personnel will be aware of the electric fire pump status while this procedure is being performed.
