Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
United States Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Denton:

On September 12, 1979 I received a copy of a letter from Mr. Wendell H. Marshall, a constituent of mine. In this letter he lists 15 questions pertaining to the sinking of the diesel building and serious cracks in other buildings at the nuclear plant under construction in Midland, Michigan. Mr. Marshall may not have noted on his original letter to you that I received a copy of that letter. However, I would appreciate a copy of any letter you may have sent him in response and an up to date summary of the situation to which he referred. A copy of his letter is enclosed.

Thank you very much for your attention to this matter.

Best wishes,

Don Albosta
