Re: Sequoyah Nuclear Plant, NPDES Permit No. TN0026460
Operational Aquatic Monitoring Program

Dear Dr. El-Ashry:

We have reviewed your amendment to the operational aquatic monitoring program for the Sequoyah facility describing additional data collection to document possible effects in impingement due to change in operational mode. The amendment is acceptable; however, we request notification of any changes in sampling methodology and intervals which may become necessary.

Sincerely yours,

John R. Horbes
Chief, KY/TN Compliance Group
Water Enforcement Branch
Enforcement Division
