Nuclear Regulatory Commission
Washington, D.C. 20555

SUBJECT: HEARINGS ON THREE MILE ISLAND

Gentlemen:

I have recently learned that the opportunity exists for citizen input on the issue of re-opening the Three Mile Island nuclear generating station. I feel most strongly that I must use this chance to air my views on the subject. I reside with my wife and daughter in our home which is approximately nineteen miles from the plant. Please schedule me as an intervenor in the upcoming hearings.

I look forward to receiving your reply.

Thank you.

Sincerely,

Stephen S. Miller
