United States Nuclear Regulatory Commission
Attn: William P. Gammill, Acting Assistant
Director for Operating Reactor Projects
Nuclear Regulatory Commission
Division of Operating Reactors
Washington, DC 20555

Reference: Beaver Valley Power Station, Unit No. 1
Docket No. 50-334
License No. DPR-66
NRC Letter Dated 9/17/79

Dear Mr. Gammill:

In your letter of September 17, 1979, you noted that the effective date for implementation of the EPA Uranium Fuel Cycle Standard, 40 CFR Part 190 is December 1, 1979.

Duquesne Light Company commits to the provisions of 40 CFR 190 and will demonstrate compliance using the existing Technical Specifications for the Beaver Valley Power Station.

Sincerely,

C. N. Dunn
Vice President, Operations
