Subject: Quad-Cities Station Unit 2
Proposed Amendment to Facility
Operating License DPR-30 and
Appendix A, Technical
Specifications, to Implement
10 CFR 50.59 Reload Licensing
NRC Docket No. 50-265

Reference (a): C. Reed letter to Director of
Nuclear Reactor Regulation
dated August 30, 1979

Dear Sir:

Reference (a) transmitted our proposed amendment to Facility Operating License DPR-30 and Appendix A, Technical Specifications, to permit future reloads at Quad-Cities Unit 2 to be performed by Commonwealth Edison Company in accordance with 10 CFR 50.59 requirements.

As the result of telephone conversations with the NRC Staff, additional changes to the License and the Technical Specifications are proposed to address concerns identified during the NRC Staff review and are contained in the Attachment to this letter. The revised pages in the attachment are a direct replacement for the same pages which were previously transmitted in Reference (a).

These proposed changes have received On-Site and Off-Site review and approval.

Please address any concerns you may have concerning this matter to this office.
